

FACT SHEET
SAFETY-KLEEN SYSTEMS, INCORPORATED
DRAFT HAZARDOUS WASTE PERMIT

The Missouri Department of Natural Resources (department) and the United States Environmental Protection Agency (USEPA) Region VII have decided to issue draft Missouri Hazardous Waste Management Facility (MHWMF) Part I and USEPA Hazardous and Solid Waste Amendments (HSWA) Part II Permits to Safety-Kleen Systems, Incorporated (SK). The facility is located at 2400 Big Bear Court in Columbia, Missouri. The public is invited to review and offer written comments on the draft permits from now until the end of the 45-day public comment period, March 13, 2006.

SK is an accumulation point for spent solvents, paint wastes, lacquer thinner wastes, and waste oil generated by Safety-Kleen customers, of whom, the majority are small quantity generators. The facility also stores other types of wastes on a ten-day transfer basis. Wastes are ultimately shipped off-site to a Safety-Kleen recycling facility or a contract reclaimer for processing. Capabilities include the storage of hazardous waste in containers and tanks. SK is certified to handle most hazardous waste other than dioxin or polychlorinated biphenyl's greater than 50-ppm. Wastewater streams can also be generated when hazardous waste containment areas come in contact with rainwater. These waste streams are regulated under the Clean Water Act.

The public can review and copy the draft permit and supporting documents at the following locations:

Daniel Boone Regional Library
Columbia Public Library
100 W. Broadway
Columbia, Missouri
Hours: 9 a.m. to 9 p.m.---Monday through Thursday
 9 a.m. to 6 p.m.---Friday
 9 a.m. to 5 p.m.---Saturday
 1 a.m. to 5 p.m.---Sunday

by appointment at either of the following department offices:

Northeast Regional Office	Hazardous Waste Program
1709 Prospect Drive	1738 East Elm St. (lower level)
Macon, Missouri	Jefferson City, Missouri
Phone: (660) 385-8000	Phone: (573) 522-3345

or between 9 a.m. and 3 p.m., Monday through Friday (not including federal holidays), at:

U.S. Environmental Protection Agency, Region VII
Information Resource Center
901 North Fifth St.
Kansas City, Kansas
Phone: (913) 551-7241

As mentioned before, the public is invited to review and offer written comments on the draft permit from now until the end of the 45-day public comment period, March 13, 2006. Comments are effective if they point out legal or technical mistakes in the draft permit. Please send written comments on:

(MHWMF Part I)
Assem Abdul
Missouri Department of Natural Resources
Hazardous Waste Program
P.O. Box 176
Jefferson City, MO 65102-0176

(HSPA Part II)
Patricia Murrow
U.S. Environmental Protection Agency
Region VII
RCRA Permitting and Compliance Branch
901 North Fifth Street
Kansas City, KS 66101

During the public comment period, anyone can request a public hearing on the draft permit issuance by writing to Assem Abdul at the above address. The hearing request must state what issues are to be brought up during the hearing. At the end of the public comment period, the department will review all written comments and any comments brought up at the public hearing, if one was held. The department can revise or deny the permit based on technical or legal issues brought up by the comments. The department will write a summary and response to all comments and explain how each was addressed or rejected in the final permit issuance.

Anyone may call or write Assem Abdul at any time to request to have his or her name placed on SK's mailing list for this facility. By doing this, they will receive notice from the department or SK on any major permitting activities at the facility.

For more information, call Assem Abdul at (573) 751-3553 or 1-800-361-4827 or Patricia Murrow at (913)-551-7627. To speak with a representative of Safety-Kleen, please contact Mark Reppond, at 734 Northwest Bypass 66, Springfield, MO 65802. Mark Reppond can also be reached at (417)-869-4203.
